e750 Medication Wall System
Security Options: Bio-metric reader, proximity badges, electronic locks with programmable keypad(s), RFID and magnet card readers.

Additional Information

o **Cable Management**
Hassle free cable management. All cables are hidden within the wall station.

o **Effortless Security**
HIPAA compliant for privacy, when shut, the e750's retractable worksurface turns the monitor off hiding patient information from the public eye.

o **Push Button Ergonomics**
Ergonomic: 12 inches of push-button height adjustment, from sit to stand positions.

o **Infection Control**
Non-porous smooth and cleanable surfaces

o **Task Lighting**
Offering multiple options for work area lighting

o **Custom Plastics**
Designed to accommodate various storage systems and brackets designed/engineered for BMV.

e750-4 Ultra Slim 4" Unit
For hallways and tight spaces where inset wall units aren't an option.

e750-i Inset Unit
Inset into the wall minimizing obstructions in tight areas.

🌱 Green | Sustainability

All Wall Station models are manufactured by our Carbon Neutral Manufacturer. (www.carbonfund.org)

o All MDF panels are manufactured with recovered and recycled wood fibers.

o All excess/offal lamination is bailed then recycled through a local plastics recycling company for reuse.

o Nearly all of the packaging material is recycled - from cardboard, to skids, to foam spacers, any thing that can be recycled or reused is given a second life and in some cases used repeatedly.
